EDUCATION

Bachelor of Science in Mathematics and Computer Science
University of Nairobi

WORK EXPERIENCE

QA Automation Engineer(Full Time)　　　　　　　　　　　　　　　April 2022 - Jan 2023
AZA Finance

- Developed and executed automated test scripts using Cypress and Appium for web and mobile applications.
- Conducted API testing using Java RestAssured for RESTful APIs.
- Participated in the development of automation frameworks using Java and Python programming languages.
- Performed Intergration tests for Micro Services using Apache kafka as a distributing streaming platform
- Conducted functional, regression, and integration testing for web and mobile applications.
- Worked with cross-functional teams to identify and resolve issues found during testing.
- Reported and tracked defects using JIRA and TestRail.
- Maintained and updated automated test suites to ensure reliability and efficiency.
- Participated in code reviews and contributed to the continuous improvement of the testing process.
- Mainted Test Databases in MySQL and Postgres

　　Technologies:　　Java, Selenium, Cypress JavaScript Framework(web), K6(Performance Testing, API Testing(Rest Assured)

Software Developer in Test(Contract Based)　　　　　　　　　　　Jul 2021 - April 2022
Safaricom Plc

- Collaborated with cross-functional teams to develop and maintain automation test scripts for iOS and Android mobile applications.
- Conducted performance testing using JMeter and LoadRunner.
- Utilized Appium, Selenium WebDriver, and TestNG to develop and execute automated tests
- Conducted functional, regression, and integration testing for web applications.
- Worked with cross-functional teams to identify and resolve issues found during testing.
- Reported and tracked defects using JIRA and TestLink.
- Maintained and updated automated test suites to ensure reliability and efficiency.
- Participated in code reviews and contributed to the continuous improvement of the testing process.
- I have Strong collaboration and communication skills within distributed Agile project teams
- Mentored junior QA engineers on mobile automation testing best practices.

　　Technologies:　　Java, Selenium(Web Driver),Gherkin, Appium(IOS, Android),API Testing(Rest Assured),Jmeter(Performance testing), Apache Kafka(Distributed Messaging)

Junior QA Engineer(Full Time)　　　　　　　　　　　　　　　　　Sep 2018 - June 2021
Inuua Tujenge, Start-Up

- Review requirements, specifications and technical design documents to provide timely and meaningful feedback
- Created detailed, comprehensive and well-structured test plans and test cases, Prevent, collect, analyze and track product defects
- Designed, developed and executed manual and automation tests using internal automation framework and system.
- Wrote scripts and perform load tests against Backend servers
- Tracked quality assurance metrics, like defect densities and open defect counts

　　Technologies:　　Python, Selenium(Web Driver),Appium(IOS, Android),API Testing(Rest Assured),Jmeter(Performance testing)
